Preface

In accordance with 7 CFR 210.31(c), a Local Education Agency that participates in the National School Lunch Program (NSLP) and/or School Breakfast Program (SBP) must establish a Local School Wellness Policy for all schools under its jurisdiction. As of June 30, 2017, Local Wellness Policies must meet the minimum requirements set forth in the Final Rule: Local School Wellness Policy Implementation Under the Healthy, Hunger-Free Kids Act of 2010.

Local Wellness Policies are a valuable tool in the promotion of student health and wellness through the NSLP and SBP. Schools play an essential role in preparing students for successful futures, and proper nutrition and physical activity are key to creating constructive learning environments. Local Wellness Policies provide guidance to further support schools efforts to provide students with a successful and healthy future.

Wellness Policy Committee

Wellness Policy Leadership

Dr. Jeremy Larson, Superintendent

Wellness Policy Committee Members

Mrs. Megan Carroll, Principal

Mr. Kyle Shay, Principal

Mr. Mark Cox, Principal

Mrs. Cheryl Mihalko, Head Cook

Mrs. Amy Campbell, Cook

Ms. Tracy Murphy, Cook

Ms. Wanda Pittman, Head Cook

Mrs. Mary Switzer, Head Cook

Mrs. Mary Goddard, Cook

Mrs. Beth Daniels, Head Cook

Ms. Megan Mathis, Cook

Ms. Van Roberts, Cook

Mrs. Chris Ike, Administrative Assistant

Mrs. Melissa Lynch, Administrative Assistant

Mrs. Tiffany Buckner, Administrative Assistant

Mrs. Debbie Graves, Administrative Assistant

Wellness Policy Committee Responsibilities

Public Involvement

The Paris Union School District No. 95 permits and encourages public involvement in Local Wellness Policy development, implementation, updates, and reviews. Therefore, Paris Union School District No. 95 shall invite a variety of stakeholders within the general public to participate in Local Wellness Policy processes. The website will be utilized to notify the general public of the opportunity to participate in these processes.

Paris Union School District No. 95 will ensure public involvement in the Local Wellness Policy process in order to promote transparency and inclusion. Therefore, Paris Union School District No. 95 encourages the general public to be a part of the Wellness Policy Committee. Examples of the general public include parents, students, healthcare professionals, local farmers, and community leaders. Paris Union School District No. 95 also encourages participation by members of the school community, including teachers, food service professionals, administrators, health professionals, and school board members. Responsibilities of Wellness Policy Committee members may include policy development, implementation, and review.

Assessments

Under the Healthy, Hunger-Free Kids Act of 2010, assessments of the Local Wellness Policy must occur no less than every three years. Paris Union School District No. 95 shall conduct assessments of the Local Wellness Policy every three years, beginning in the 2022-2023 school year and occurring every three years thereafter. These assessments will: Ensure the wellness policy is in compliance with USDA, State, and Local rules and regulations

- Compare the LEA's wellness policy to model wellness policies
- Measure the progress made in achieving the goals as outlined in the LEA's wellness policy

Updates

The Wellness Policy Committee must update the Local Wellness Policy as appropriate in order to fit the needs and goals of the Local Education Agency. The LEA shall make the following available to the public:

- The Local Wellness Policy, including any updates to the policy, on a yearly basis
- The triennial assessment, including progress toward meeting the goals outlined in the wellness policy

Through the following channels:

- The website will be utilized to notify the general public of the wellness policy updates
- Board of Education Policy Readings

- Board of Education Public Meetings

Records

The Local Education Agency shall maintain record of the Local Wellness Policy. This includes keeping a copy of the current wellness policy on file and maintaining documentation of the following actions:

- The most recent assessment of the policy
- Availability of the wellness policy and assessments to the public
- Reviews and revisions of the policy, including the individuals involved and the efforts made to notify stakeholders of their ability to participate in the process

Nutrition

The Local Education Agency recognizes the important role nutrition plays in academic performance as well as overall quality of life. The National Education Association references numerous articles supporting the effects of nutrition on the classroom, for example, hunger often has a negative impact on students' success, attendance, and behavior.

According to the Centers for Disease Control and Prevention, approximately 18.5 percent of the nation's youth was considered obese in 2015-16. This percentage increased 1.3 percent when compared to the previous year. Conversely, 15.7 percent of American families experienced food hardship in 2017. Through participation in the U.S. Department of Agriculture's School Nutrition Programs, the LEA commits to serving nutritious meals to students in order to prevent both overconsumption of nutrient-poor foods and food insecurity to give students the best chance to succeed inside and outside the classroom.

Nutrition Standards

Meals

All reimbursable meals served for the purposes of the National School Lunch Program (NSLP) and School Breakfast Program (SBP) must meet or exceed USDA nutrition standards and regulations. This includes meeting standards for each of the meal pattern components (i.e. Grains, Meat/Meat Alternates, Fruits, Vegetables, and Milk) as well as meeting or exceeding the limitations set for calories, sodium, saturated fat, and trans fat.

Competitive Foods

All competitive foods and beverages sold must comply with the USDA Smart Snacks in Schools nutrition standards (7 CFR 210.31(c)(3)(iii)). Competitive foods and beverages refer to those that are sold to students outside the reimbursable meal on the school campus (i.e. locations on the school campus that are accessible to students) during the school day

(i.e. the midnight before to 30 minutes after the end of the school day). This includes, but is not limited to, vending machine and à la carte items.

Other Foods and Beverages

- A.** The following policy refers to all foods and beverages provided, but not sold to students. The Local Education Agency will prohibit the use of food as a reward or as part of a celebration. Providing alternatives to food as a reward promotes healthier habits by reducing exposure to less nutritious food items and, therefore, the amount of calorie-dense food items consumed (e.g. cakes, cookies, candy, etc.). This helps children develop improved food preferences and hunger cues to carry them throughout life.
- B.** The following policy refers to all foods and beverages provided, but not sold to students. The Local Education Agency will prohibit food and beverage items that do not meet Smart Snacks nutrition standards for reward and celebration purposes. More than 25 percent of children’s daily calories may come from snacks, therefore, providing Smart Snacks allows for a more nutrient-dense calorie intake.

Fundraisers

- A.** All fundraisers promoting food and/or beverage items that are held on school campus (i.e. locations on the school campus that are accessible to students) during the school day (i.e. the midnight before to 30 minutes after the end of the school day) must meet Smart Snacks nutrition standards.
- B.** Fundraisers promoting food and/or beverage items that are held on school campus (i.e. locations on the school campus that are accessible to students) during the school day (i.e. the midnight before to 30 minutes after the end of the school day) must meet Smart Snacks nutrition standards. However, the LEA may participate in infrequent exempted fundraising days, in which food and beverage items do not meet Smart Snacks standards, as the LEA sees fit. These exempted fundraising days shall not exceed nine days within one year.

Nutrition Education

In accordance with the Illinois Learning Standards, the Local Education Agency shall meet all Illinois requirements and standards for Health Education. The Local Education Agency shall include nutrition education within the health education curriculum and integrate nutrition education into other core subjects, as appropriate. Various grade levels and curriculums shall use nutrition education information, research, and materials from the following resources:

Nutrition Promotion

The District shall implement nutrition promotion techniques through multiple channels, including the cafeteria, classroom, and home.

Farm to School efforts positively impact School Nutrition Programs by serving fresh and nutritious food items. Additionally, Farm to School programs have been linked to increased consumption of fruits and vegetables. The District shall participate in the following Farm to School activities:

Food loss and waste continue to be an issue facing the nation's food supply. In order to prevent food waste, the District will make every effort to produce the precise number of meals needed on any given day by using production records and resources such as the USDA's Food Buying Guide. However, in the event excess food remains, the District will continue to provide food to students in need beyond the meals provided through the USDA School Nutrition Programs. Therefore, the District shall follow the established food sharing plan, in accordance with Public Act 102-0359, and federal and local regulations and sanitation codes:

Marketing

- A.** The Local Education Agency will prohibit the marketing and advertising of all foods and beverages that do not meet Smart Snacks nutrition standards on the school campus (i.e. locations on the school campus that are accessible to students) during the school day (i.e. the midnight before to 30 minutes after the end of the school day). The marketing standards described above apply, but are not limited to, oral, written, and graphic statements made for promotional purposes. Items subject to marketing requirements include, but are not limited to, posters, menu boards, vending machines, coolers, trash cans, scoreboards, and other equipment. This policy does not require schools to immediately replace equipment that does not meet this requirement, however, the District shall implement these standards as equipment needs replaced in the future.

- B.** The Local Education Agency will prohibit the marketing and advertising of all foods and beverages on the school campus (i.e. locations on the school campus that are accessible to students) during the school day (i.e. the midnight before to 30 minutes after the end of the school day). The marketing standards described above apply, but are not limited to, oral, written, and graphic statements made for promotional purposes. Items subject to marketing requirements include, but are not limited to, posters, menu boards, vending machines, coolers, trash cans, scoreboards, and other equipment. This policy does not require schools to immediately replace equipment that does not meet this requirement, however, the District shall implement these standards as equipment needs replaced in the future.

Physical Activity

Physical activity is a key component of the health and well-being of all students. Physical activity lowers the risk for certain diseases, including obesity, heart disease, and diabetes. Physical activity also helps improve brain function, allowing students to perform better in school.

The Centers for Disease Control and Prevention recommends adolescents get at least 60 minutes of physical activity five days per week. Nearly 79 percent of school-age children fall short of meeting this requirement. The Local Education Agency recognizes this connection and commits to promoting and providing opportunities for physical activity during and outside the school day.

Physical Education

In accordance with the Illinois Learning Standards, the Local Education Agency shall meet all Illinois requirements and standards for Physical Education.

Other School-Based Activities

Just as it takes a comprehensive curriculum to provide education to support students' futures, the Local Education Agency's wellness approach must also be comprehensive in its intent to provide students with the tools they need to live a healthy lifestyle. In order to further establish positive behaviors related to nutrition, physical activity, and health, the LEA commits to making additional wellness-based activities available to all students beyond the cafeteria and gymnasium.
